## **OVERVIEW**

The curriculum gives students the organisational and administrative abilities they need to be efficient and effective administrators. Additionally, the curriculum seeks to give students the necessary knowledge and fundamental business abilities to function well in a workplace that is undergoing fast change. The curriculum generally covers the depth and the inter-disciplinary aspects of business. It strikes a balance between theoretical knowledge and a practical curriculum that is also appropriate for different roles in different sectors. Additionally, it is a rare chance to improve students' comprehension of the industry in a competitive setting. After completing this programme, students will have greater confidence and a competitive advantage, which will increase their career prospects.
